

Chester 355DM Bandsaw

The Chester 355DM Bandsaw is a versatile saw which is fitted with a hydraulic workpiece clamping system ensuring the workpiece is securely fastened before cutting. This machine has a quick action mitre cutting facility. The blade is driven through a gearbox from a high power variable speed 3 phase motor which allows the operator to obtain the correct cutting speed. The tension of the blade is set using the blade tension gauge on the bow of the saw.
